

## **DPRK Missile Administration Conducts First Test-fire of New-type Strategic Cruise Missile**

Pyongyang, January 25 (KCNA) -- The Missile Administration of the DPRK conducted the first test-fire of the new-type strategic cruise missile "Pulhwasal-3-31" under development on January 24.

The test-fire had no impact on the security of neighboring countries and has nothing to do with the regional situation.

The Missile Administration explained that the test-fire is a process of constant updating of the weapon system and a regular and obligatory activity of the administration and its affiliated defence science institutes. -0-
